

# You're Busy. We Make Ambulance Billing Simple

Since 1994, our expertise and focus on communication and relationship building have been the keys to NEMB's success. We help to maximize cash flow and ensure the fastest possible return on investment for ambulance services provided. Our ambulance billing record has consistently yielded a 95% collection rate.

## NEMB's Ambulance Billing Services Include:

- Comprehensive Coding
- Patient Insurance Verification including payer and patient outreach
- Accounts Receivable (A/R) Management
- Self-Pay Collections Management
- Documentation Audits
- Detailed Report Analysis
- Front-end Education and Training
- Best practice implementation and ongoing support

## Our experts are well-versed in all types of ambulance and medical transport billing which include;

- Emergency Transport
- Non-Emergency Transport
- Specialty Care Transports
- Intercepts

## Why Choose Us?

- We know our job is to make yours easier – this is our priority
- NEMB will interface with all applicable parties to properly obtain demographics – patients, hospitals, police departments, motor vehicle insurance carriers
- Claims are submitted within 48 hours of receipt using our state-of-the-art practice management software
- On average we find insurance information in-hand within 48 hours of service
- NEMB manages the process for self-pay patients and collection placements
- We negotiate and manage hardship payment plans
- Our MedBiz Cloud suite has many tools to improve efficiency
- All denied claims are properly worked within 48 hours
- 98% clean claim submissions to insurance for our clients
- Customized reports to keep leadership informed consistently

## How Do We Do It?

Our technology and team members. We leverage technology and the expertise of our team to create efficiencies and drive reimbursement.
