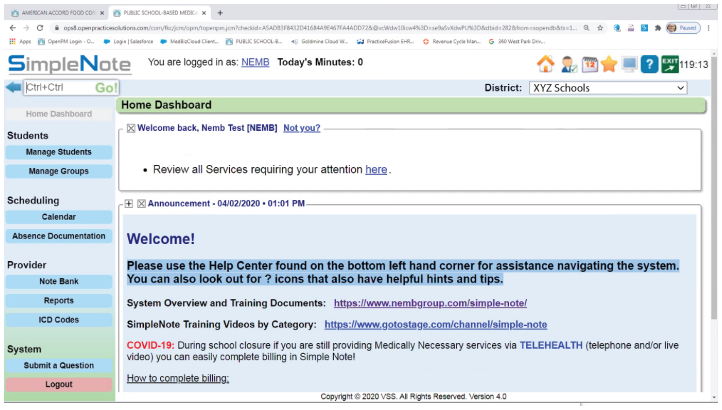
SimpleNote School-Based Medicaid Documentation and Billing Software

Finally, service documentation made Simple with our no-cost software solution

Proprietary Web Based Software

- Compliant, Customizable, Adaptable, and Accessible solution for your state's School-Based Medicaid Program
- All-in-one Billing Solution which replaces School District Medicaid billing software module
- SimpleNote provided at no cost to School Districts

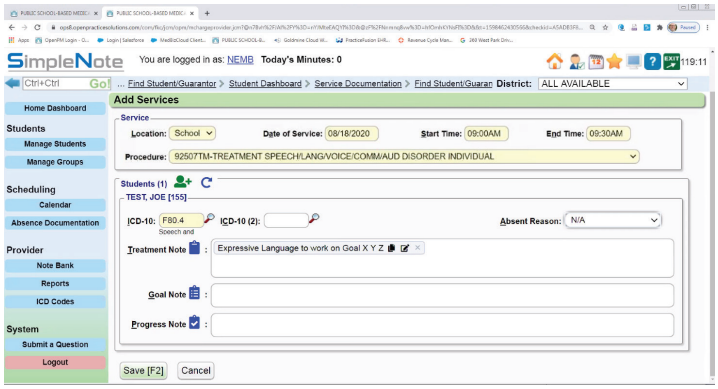


NEMB Full Service Software Implementation

- NEMB handles system setup plus user and student administration
- NEMB provides all SimpleNote training and customer service

Increased Provider Productivity

- Minimal key strokes to complete billing
- Autosaved ICD-10 codes
- Customizable treatment note bank
- Calendar scheduling option and group scheduling
- Regular program updates published via SimpleNote
- Seamless integration of provider documentation within SimpleNote including Treatment Plans, Service Authorizations, or other required forms for School-Based Medicaid



School District Administrative Reporting

- Monitor provider productivity
- Review student note history and service summary
